What our clients say...

“The carer who came was like a breath of fresh air and so patient, she really cared, nothing was too much trouble and was soon on friendly terms with us. If it had been possible, my sister would have taken her home with her at the end of her visit. I have no hesitation in recommending Visiting Angels.”

Malcolm R.

“The care provided for my Mum from Visiting Angels has been exceptional. The carer’s have been instrumental in helping to source additional support for Mum’s complex needs. The care has been executed in an empathetic, kind and professional manner at all times. The support and understanding provided to my Dad at such an emotional and difficult time has been so welcome and very much appreciated by all the family.”

Helena C.

“I enjoy very much the carer coming each morning. They are very cheerful and a great help with my needs. One of the carers in particular is a special Angel.”

Joan A.

“The main carer for my Mum, who suffers from Alzheimer’s, goes above and beyond in her duties of care. She is so kind to Mum, encouraging her to do various activities, and also having Mum teach her too. In the last week, we have had a traumatic time with Mum’s dog. Her carer was there at the time and dealt with the situation admirably and with no panic. She is a carer to be treasured.”

Janet H.

“I thank you for finding such a nice and pleasant person. She is like a breath of fresh air. My wife gets on very well with her and can talk on most subjects, she treats my wife very well. She is what you could call, a Visiting Angel and I could not praise her enough. Where, however, did you find her? She blends in so well and is ready to help, at any moment.”
