All caregivers should be aware that Visiting Angels delivers bespoke care and support seven day a week and this includes the weekends and Bank Holidays.

Changes to client's regular caregivers and expectations need to be managed appropriately and, in some cases, sensitively as there will need to be alternative caregiver introductions and discussions with both the client and their family members. Therefore, we require 2 weeks' notice for changes to availability to come into effect.

Once your request has been actioned, you will be informed of the date it will come in effect and remember, this is your availability to work and not to support a specific client.
